

New Plymouth Contract Bridge Club (Draft)

Result Adjustment after Completion of a Playing Session

Policy

Club Session Result Adjustment

Where a member believes the result for a board in a playing session has been incorrectly entered they may request the Director to make a correction to the entered result.

The correction must be requested no later than 48 hours after the completion of the session

Both members of the pairs who played the board against each other must be in agreement that the entered result is incorrect and what was the correct result when the board was played.

Tournament Result Adjustment

Where a player believes the result for a board in a tournament playing session has been incorrectly entered they may request the Director to make a correction to the entered result.

Both members of the pairs who played the board against each other must be in agreement that the entered result is incorrect and what was the correct result when the board was played.

The Correction Period expires 30 minutes after the official score has been made available for inspection, unless the Tournament Organiser specifies a later time. Additionally, subject to approval by the Tournament Organizer, a scoring error may be corrected after expiry of the Correction Period if the Director is satisfied beyond reasonable doubt that the record is wrong.

Where the Correction Period is less than 30 minutes, this information will be included in the tournament's conditions/regulations, but also announced before the players commence play in the last round/session.

In all cases where a score has been corrected in either a club or tournament session, the Director shall notify the two pairs who were affected by the error.
